Magna cum laude with honors in *Interactive Media Art*
Minor in *Social Science*
New York University Abu Dhabi | Aug 2022 - Dec 2022
Study away

RESEARCH EXPERIENCE

Natural Materials Studio | Research Assistant | Oct 2023 - May 2024

- Researched and experimented on recycled materials (primarily eggshells and cardboard) for artistic practice.
- Designed and created example design objects.
- Met and reflected with research advisors on the experiment process.

2023.5 - 2023.8 **Investigation of the Negative Impact of Metaverse on People's Perception of Their Identities**

NYU Shanghai Dean's Undergraduate Research Fund | Shanghai, China
Mentor: Inmi Lee, Associate Arts Professor of Interactive Media Arts
Partner: Zihan Liu
Output: A 2-channel video installation named "The Avatar of DorianGray#2196"
An art research project that specifically studies how the highly simulated environment in the Metaverse could potentially exacerbate the confusion between online and offline identities and negatively influence people psychologically. The research was ultimately showcased as an art installation.
